-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 2-28-06.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

- 4) ☒ Claim(s) 1,2,4-45,47,48 and 85 is/are pending in the application.

DETAILED ACTION

Response to Amendment

Claims 1 and 85 have been amended claims 3, 46, 49-84 have been canceled.

Hence, claims 1, 2, 4-45^{47, 48}, and 85 are pending in the application.
^

Applicant's arguments are persuasive to the extent that the previous rejections have been withdrawn.

Double Patenting

The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

Claims 1, 2, 4-36 and 85 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-3, 6, 10-36 of U.S. Patent No. 6,835,239. Although the conflicting claims are not identical, they are not patentably distinct from each other because both the application and the patent are directed to fluorescent ink compositions.

Claim Rejections - 35 USC § 103

Art Unit: 1755

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1, 2, 4-45, 47, 48 and 85 are rejected under 35 U.S.C. 103(a) as being unpatentable over Auslander et al (US Patent 6,793,723).

Auslander et al teach an ink composition that moderate the typically occurring phenomenon of quenching which comprises a first colorant comprising at least one fluorescent dye, a second colorant comprising water-soluble polymeric dye of effective molecular configuration to inhibit quenching of fluorescence of the first colorant and an aqueous liquid vehicle comprising water and a water-soluble vehicle in sufficient amounts (abstract and col. 5 lines 23-41). The reference further teaches that the fluorescent dye may be based on the chromophoric systems such as anionic coumarins, cationic coumarins, anionic naphthalimide dyes, pyranine, rhodamines, bispyrromethane boron complexes and pyronines (col. 14 lines 36-65). The ink carrier contains at least 65 percent water, fluorescence stabilizer, surfactants and glycol ethers (col. 15 line 26-col. 16 line 34). The examples disclose the amount of the fluorescent dye is in Applicant claimed the amount and that the fluorescent dye includes Acid Red 52. The reference fails to specifically the first and second organic compounds which are incompatible with each other. However the reference broadly discloses the components of the ink composition. Therefore it would have been obvious to one of ordinary skill in the art to use the components discloses by Applicant in the composition

Art Unit: 1755

of Auslander because the components taught by the Applicant are well known components.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
